The **brainLight**<sup>®</sup>-Synchro be clever facilitates mental training based on the latest research in neuro-technology and invites your child on an exciting journey into the world of easy and fast learning. The **brainLight**<sup>®</sup>-Synchro be clever produces scientifically established frequencies of audio-visual stimulation that support your child in reaching top levels of performance. By soothing and balancing the brain waves, focus and concentration are increased and the mind gets optimally prepared for learning. We are all endowed with limitless potential and reserves of mental ability which we draw upon to achieve our goals. When we are able to tap into our own inner mental sources we give ourselves the best opportunities to be successful. By providing your children with this state-of-the-art mental training unit, you have added the ingredient for educational excellence. The final ingredient is their passion, drive and commitment towards developing a stronger mind/body connection in order to gain outstanding results. You can help your children reach this level with your support when you share their passion for learning.
