LIFE IN BALANCE

How does the **brainLight® Synchro** affect your body and mind?

There have always been teachings on how to live a fulfilled life. However, most people in our time don't have the mindset and time to follow these teachings. Microprocessors and electronics are showing a new way: people are given access to a state of deep relaxation at the touch of a button. The **brainLight® Synchros** are manufactured to meet the highest demands on quality – made in Germany. This insures good workmanship and long product life. The heart of your **brainLight® Synchro** is a sophisticated computer. It is programmed to produce optical patterns and acoustic signals in stimulating sequences which are transmitted through headphones and goggles. Certain frequencies are set and the brain is able to align to these frequencies spontaneously. This enables you to achieve your desired state: Relaxation – Motivation – Learning – Meditation – and much more.
