

Relaxation at the touch of a button

**brainLight**® Synchro

*be relaxed*

Using the **brainLight**® **Synchros** it is pleasant and easy to train your mental abilities. Simply put on goggles and headphones, choose a program and close your eyes. Optical and acoustic signals stimulate your body and mind harmoniously. They help to develop your personality, intelligence and to expand your consciousness. You will live more intensely, more spontaneously and more balanced at the same time. Mental Fitness, more energy & vitality, instant stress relief, easier learning – all that can be achieved by using your **brainLight**® **Synchro** regularly.

The strength you gain through deep relaxation expresses itself in inner peace and self-confidence. It expresses itself in resistance to stress and charisma. You will experience the dazzling array of life in balance. The **Synchro be relaxed** supports this with specifically designed music-, voice-, light-, and sound programs. Nowadays only those who stay calm, focused and balanced can master life with joy and success.

LIFE IN BALANCE

# How does the **brainLight® Synchro** affect your body and mind?

There have always been teachings on how to live a fulfilled life. However, most people in our time don't have the mindset and time to follow these teachings. Microprocessors and electronics are showing a new way: people are given access to a state of deep relaxation at the touch of a button. The **brainLight® Synchros** are manufactured to meet the highest demands on quality – made in Germany. This insures good workmanship and long product life. The heart of your **brainLight® Synchro** is a sophisticated computer. It is programmed to produce optical patterns and acoustic signals in stimulating sequences which are transmitted through headphones and goggles. Certain frequencies are set and the brain is able to align to these frequencies spontaneously. This enables you to achieve your desired state: Relaxation – Motivation – Learning – Meditation – and much more.
